Re: Solid Waste - Dallas County
City of Garland - Permit No. 1062-A
Adjacent to and on N Side of Castle Drive

Dear Mayor Smith:

This is in response to a letter, dated June 29, 1992, from Mr. Lynn Norton, Managing Director, Environmental Resources and Services, requesting a change in the currently approved hours of operation for the subject site. This request that the subject site be allowed to operate during hours other than those established in the Commission's Municipal Solid Waste Management Regulations (MSWMR), the permit, or the Site Development Plan (SDP), has been reviewed by my staff and discussed with our district representative.

It is our determination that you may operate this facility from 7:00 a.m. to 7:00 p.m. seven days a week until further notice. This approval is granted in accordance with Section 305.70(h) as a Class I modification to the subject permit and the SDP. As a result of the approved change in the operating hours for the site, a revised Site Operating Plan (SOP) reflecting this modification must be submitted prior to October 30, 1992. This matter will be reviewed periodically, and at some future date you may be required to revert to the operating hours in effect prior to this authorization.

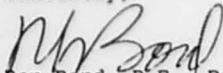

The Honorable Robert Smith
